**Features**

*Works of art.*  
Now an artist's home and studio, this 3 bedroom, 3 bath home is a work of art with a vaulted-ceilinged great room that catches the morning sun and opens onto a tree top deck overlooking the landscaped 0.16 yard. A brick parking pad opens onto a quiet cul-de-sac in front. In back a short drive leads to the lower level studio that could be converted back to a garage.

The Sans Famille neighborhood is itself a work of art. Raleigh's first PUD (planned unit development) is tucked away just outside the I-440 Beltline near Rex Hospital convenient to downtown and RTP. A winding loop road, the Rue, leads to several intimate cul-de-sacs some over looking a small lake. The neighborhood canvas is a unique composition of modest, mostly cedar sided homes intricately located close together yet providing remarkable privacy and attractive landscaping.

*Versatile floor plan.*  
Even the stairs to the basement have character, serving as yet another gallery space. In addition to the big master suite, the versatile floor plan includes a second master/office/guest room on the lower level. The other bedroom on the main level has a convenient nook now used as a study. The 22 ft long artists studio could be further finished or converted back to garage. An adjacent concrete floored crawl space and exterior room provide lots of storage.
