Features

Surprise. This picturesque Bungalow has 2,349 sqft. living area on three levels with 3 bedrooms and 2.5 baths. A private driveway provides off street parking. A large deck encircles a stately shade tree and overlooks the fenced backyard.

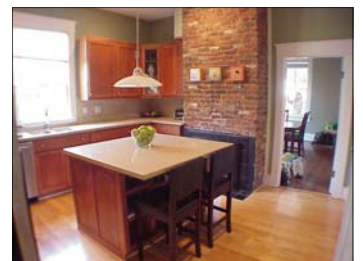

More surprises. Old and new blend tastefully as you enter the vaulted foyer which is flanked by the living and dining rooms, one with a new fireplace mantel, the other with the old.

Gallery-like spaces

The master bedroom suite is spectacular and unique, a room for all seasons. Curl up before the gas fireplace in winter and throw open the doors to the balcony overlooking the backyard in summer. The master bath with separate tub and shower was remodeled in 2003.

The kitchen was recently remodeled with new cabinets, granite counter tops, tile backsplash & newly refinished floor. It has a gas fireplace, a pantry closet.

The two 1st floor bedrooms are conveniently centered on a back stair hall that is a 3 story column of windows overlooking the backyard.

The bright finished lower level opens to the backyard. It has a built-in desk, bookshelves, long work surfaces, a new tile floor and new half bath. Zoned heat & air was new in the last 2 years. The roof was new in 2002.
