

Early last century, a detached kitchen and tack room were joined with the main house.

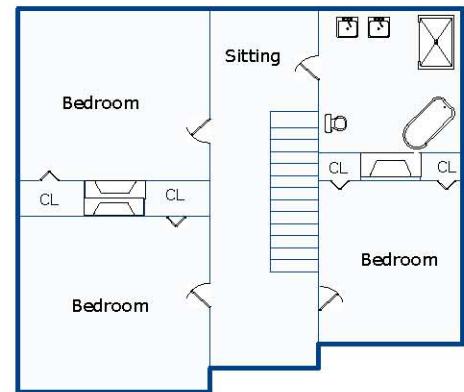

**Robert Lee Horton House**  
**323 E. Lane Street**  
**Historic Oakwood**

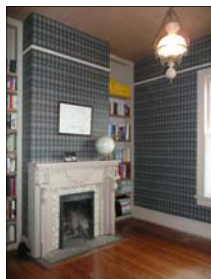

**Versatile Plan In & Out**

The interior has multiple rooms, existing uses and future options. Located on a corner lot, the landscaped yard with a winding brick path, 2 handsome porches and a deck provides "outdoor rooms" on all four sides of the house.

The handsome family room/library could be remodeled as a 1st floor MBR/guest suite by connecting it to an existing closet and full bath behind the bookcases.

The southeast facing front bedroom could be opened to the existing upstairs bath. A second upstairs bath could be placed at the end of the hall.
