Features

A work of art. Stained glass windows, exquisite mantels, 4 panel doors, all were painstakingly restored between 1989 and 2002 by prior owners, Peter and Carolyn Andrews, whose improvements included new kitchen, baths, electrical, plumbing, heat and air systems. The kitchen, once a detached building, retains the barge-board walls of the original space, now lined with custom built cabinets with ageless character.

A practical home. The versatile floor plan includes living, dining & family rooms plus 3 bedrooms each larger than 15x15 ft. The current owners, before relocating, added bookshelves in a bedroom (without a closet) that they used as an study, enlarged closets in a 2nd bedroom and created a true master suite by opening a 3rd bedroom to a full bath with a walk-in closet.

A get-a-way. Studio, workshop, boat storage or future finished space, all are options for using the 500 sf, daylight basement with 3 rooms that opens through handsome swinging garage doors into an intimate fenced lawn and garden. A brick driveway provides off-street parking and access to the backyard. All this is located on one of the most picturesque streets in Raleigh, where, in the next block, Gregory Peck and Lauren Bacall starred in a movie made in the late 1990s.
