

This home has a remarkably contemporary floor plan plus a fenced yard, patio, carport and a workshop/storage building.

The bright 17x13.6 ft kitchen with a wall of windows is a rare treasure. A small utility/mud room leads outside.

The 13.6x11.8 ft family room could be a 3rd bedroom. The hardwood floors extend through all but the kitchen.

The combined living-dining room is 22 feet long giving you plenty of flexibility in deciding whether you want to put a dining room table here or in the large kitchen.
